Lawyers

The Aurora Project is pleased to announce that Rio Tinto and FaHCSIA are again offering two scholarships to lawyers currently working, or interested in working at Native Title Representative Bodies (NTRBs). The program commences in September 2013. Successful candidates will undertake a one year Master of Laws (LLM) in Mineral Law at the University of Dundee, Scotland and must commit to work within an NTRB for a minimum period of two years upon their return. The program has led to 17 lawyers selected and 14 undertaking studies, 12 of whom are from nine NTRBs. Applications close March 15.

Business leader

Undertaking graduate studies in business and economics at the University of Melbourne ensures you are part of a globally leading centre for business education, executive development, research and innovation. Graduates are highly employable, with strong technical capabilities and the ability to creatively apply knowledge to real-world challenges. At the dawn of the Asian century, University of Melbourne is ideally positioned as the foremost educator for business and economics leadership development in not just our region, but the world. A diverse structure, incorporates programs for those early in their career through to senior professionals, world-class teaching standards and commitment to alumni.

Juris Doctor

Taught at a graduate level, the Melbourne Juris Doctor (JD) equips graduates to take a leading role in contemporary legal practice, the business world, government or community organizations. The Melbourne JD is highly regarded and readily recognized, both nationally and internatonally. It leads to admission to the legal profession in all Australian jurisdictions and can also be used as a basis for seeking admission in many jurisdictions overseas. With degree partnerships with Oxford University, New York University Law School and Chinese University of Hong Kong, Melbourne Law School gives you the opportunity to graduate with two internationally recognized qualifications.
