

# PhD Scholarships for 2014

*Join one of Australia's premier research environments*

Look beyond your boundaries at the University of Tasmania (UTAS), a place where you can pursue your goals in an environment of academic excellence. Ranked within the top 2% of universities worldwide\*, UTAS offers access to an extensive range of research opportunities, world-class facilities and centres as well as academic staff who are leaders in their field.

The University is offering generous tax-free Elite Scholarships in a broad range of disciplines, valued at \$32,000 per annum for 3 years. Australian Postgraduate Award Scholarships are also available, currently valued at \$24,500 per annum.

UTAS provides international leadership in five thematic areas, and priority will be given to research candidates aligning with these broad disciplines:

- Creativity & Culture
- Health & Wellbeing
- Environment & Sustainability
- Marine, Maritime & Antarctic
- Enabling Platforms

In addition to a generous stipend, successful scholarship candidates will be enrolled in the Graduate Certificate in Research, a unique program that enhances your skills development to enable your choice of employment post-PhD. Students will receive a laptop, a conference support fund and a supportive environment to assist in navigating their individual research path.

If you are passionate about research and have an excellent academic record, contact the UTAS Graduate Research Office today.
